# CAMOUFLAGE USED BY THE MEXICANS

(By Associated Press)  
JUAREZ, Mex., Oct. 1.—Camouflage as a war art was known in Mexico long before it was used in Europe although not by that name. Mexican soldiers since the days of Diaz have practiced concealment for military advantage. They have been known to place their high-crowned straw hats on poles stuck in sand hills in such a way as to make the enemy force believe they were defending the hill, then flank the enemy from another direction. Huerta's federal soldiers used camouflage to conceal the port holes in the sides of armored railroad cars. A checker-board pattern was painted on the sides of these cars and black and white squares concealed the rifle ports.

The Mexican fighting men have also used the trick of covering their high hats and bodies with brush to advance on the enemy positions thickets. Villa originated the plan of driving a herd of cattle into a beleaguered town at night in order to draw the fire of the defenders and to explode any mines in the streets.

The most primitive, though effective application of camouflage in Mexico was the practice of the Tarahumara Indian scouts with Madero's revolutionary army. These half-naked scouts would precede the army and by doing a kind of patter dance, raised a cloud of dust which concealed them from the view of the enemy and permitted them to approach enemy positions without being detected in their envelope of dust which resembled a dust whirl common on Mexican deserts.

# SEPTEMBER WAS ONE OF THE WETTEST ON RECORD

September was one of the wettest on record, showing precipitation of .65 of an inch compared with .13 in 1917, .17 in 1916, .27 in 1915. The only time this downpour was exceeded was in 1909 when 2.07 inches fell. In 1910 with .94 of an inch and 1908 with .74. Normal for the month is .50. The highest temperature was 81 on the 1st and the lowest 39 on the 23d. The phenomena of the month included a lunar halo on the 27th, hail on the 22d and a light frost on the 24th.

# BIG TURNOUT TO CELEBRATE THE CAPITULATION OF THE BULGARIANS

The victory demonstration last evening was up to the standard of the best celebration conducted under auspices of the Nye County Council of Defense. There were more people in line and a number of women with babies who marched up and down the street behind the band of the Musicians' union and the allied colors preceded by Old Glory itself. When a halt was called the boy scouts were requested to circulate in the crowd and take up a collection to defray the expenses the county was put to in providing red fire for the demonstrations. There have been over a score such appearances and this was the first time at which the public was invited to help out. After the "Marseillaise" was played Harry Grier, the official master of ceremonies called upon Judge Averill to make a few remarks. The judge responded with an amazing array of figures that caught the fancy of the audience better than the most stirring burst of oratory as the quotations were received with liberal applause.

# LOWELL DANIELS LEAVES TOMORROW

A big send off is being arranged by the many friends of Lowell Daniels tomorrow morning when he leaves for Camp Pike, near Little Rock, Ark., to join the fourth officers' training camp.

Lowell Daniels has been secretary of the local Elks lodge for the past five years and has been present and assisted in initiating more than four hundred of the members now belonging to Tonopah in addition to looking after the club rooms and publishing the spicy Elks' monthly journal, giving many interesting events and happenings of the order.

Mr. Daniels has also been associated with the public and political life of Nye county for over twelve years, having served as deputy clerk under Landquist and Bob Pohl, clerk of the district court under Hon. Judge Averill, and is at present assistant district attorney under Harry H. Atkinson all of which positions he has filled with much credit to himself.

The Musicians' Union band, R. P. O. Elks, boy and girl scouts, ladies of the Nye county chapter of the Red Cross, G. A. R. veterans, Women's Relief Corps, Spanish War Veterans and Young Men's Serbian society, in addition to all citizens are urgently requested to meet at the flag pole on Main street at 8:30 a. m. sharp and march to the depot in a body. Short and appropriate ceremonies will be held before the departure of the train at the station.

This will be the last morning demonstration in which the boy and girl scouts will be used in with the exception of probably twice a month when the large body of new draft registrants are called to the service, as it is interfering with their studies, and the council of defense does not desire any curtailment of the school duties.

# FIRST NATIONAL BANK APPOINTED SURETY AGENT

The National Surety company of New York announces the appointment of the Nevada First National bank as a local agent. The appointee is authorized to arrange the execution of fidelity, court, contract, public official and other surety bonds, and burglary insurance policies, protected by the company's \$5,000,000 capital and surplus.

# STRIKE IS DISAPPOINTING

(By Associated Press)  
NOME, Alaska, Aug. 2.—(By Mail)—Prospectors returning from Kuskokwim ports do not bring encouraging reports from Watermoose creek, the new strike in the Good News bay section. On only three claims, the original scene of the discovery, it is said, has pay been found.

# LIBERTY LOAN BOY ARRIVES IN NEW YORK

Lee Shivel is rejoicing over the arrival of a son in New York City where his wife was visiting when she entered the New York Nursery and Child hospital. The baby weighs eight and a half pounds and the mother is reported doing well. Mr. Shivel was formerly with the Esplanade Power company and is employed now by the Nevada-California Power company as an electrician.

# SALVATION ARMY FUND CLOSED IN THIS COUNTY

A. H. Keenan, in charge of the Nye county drive for the Salvation Army, closed his account with \$791.15 to pass to the credit of the state fund. The last subscription received was a ten-dollar check from the Machinists' union, which came unsolicited and proved a great surprise.

# DRAFT IS COMPLETED AHEAD OF SCHEDULE

(By Associated Press)  
WASHINGTON, Oct. 1.—The draft drawing was completed hours ahead of schedule. The last number drawn was 12,734.

monies called upon Judge Averill to make a few remarks. The judge responded with an amazing array of figures that caught the fancy of the audience better than the most stirring burst of oratory as the quotations were received with liberal applause.

James J. Degan sang the first and last verses of the American national anthem and the crowd joined in the refrain. Then Frank Dunn made a few remarks and the crowd adjourned after giving three cheers for the president and the allied generals.

The feature of the celebration was the unanimous attendance of the membership of the Young Men's Serbian society which appeared with the officers in full uniform and marching behind the Stars and Stripes and the Serbian colors.

# GREAT BIENNIAL

(Continued from Page One.)

fornia, Democrat, and Gale Powers, of Kentucky, Republican.

On the other hand most of the representatives from the southern Democratic states have been assured of re-election to the sixty-sixth congress by virtue of their primary nomination.

In this election for the first time, women are seeking seats in the senate. Representative Jeannette Rankin of Montana is seeking election from her state while Anne Martin of the Woman's party is a senatorial candidate in Nevada. New York also has a woman candidate for congress.

Socialist, prohibition and other parties also have their candidates in the present campaign. Coalition of Democrats and Republican forces against the Socialists has occurred in some localities, but the campaign now is being conducted largely between the two leading parties in an effort to secure unquestioned control of the senate and house without intervention of any "balance of power" from the minor organizations.

# BELGIANS CANNOT PAUSE TO COUNT

(By Associated Press)  
HAYRE, Oct. 1.—Belgian and British forces under command of King Albert continued to make good progress. They reached the environs of Roulers and crossed the Roulers-Menin road. The number of prisoners has increased, but it is not possible to count them.

# WIPING OUT CONVOYS BEHIND THE LINES

(By Associated Press)  
PARIS, Oct. 1.—French aviators destroyed twenty-five German airplanes Monday when bombing squadrons dropped 26 tons of bombs on convoys at concentrating points behind the enemy front.

# LARRY E. GLASS MAKES A WONDERFUL RECORD

Larry E. Glass, incumbent of the office of county clerk, is the unanimous candidate for the same position, with the office of county treasurer added, according to the law which takes effect on the first of January consolidating both offices.

Mr. Glass has made a wonderful record in the management of his office which has been burdened with all the details of the draft and the infinite labor connected therewith. This has involved a vast amount of night work which was cheerfully assumed and the entire business of the office transacted without adding a dollar to the expense of the government, so far as Nye county was concerned. The candidate has been a resident of Tonopah for many years and is personally known to almost every voter in camp while in the outside districts he has made himself popular by unfailing courtesy.

# ECONOMIES OF BAKING ARE MADE PERMANENT

(By Associated Press)  
SPOKANE, Wash., Oct. 1.—Immense economies hereafter will be practiced in the baking industry as a result of lessons taught by wartime thrift, according to Charles H. Iffland of Chicago, international secretary of the Bakery and Confectionery Workers' Union of America, who paid a visit here recently.

"Before the war taught conservation," Mr. Iffland said, "tons of flour and bread were wasted every day throughout the United States because the bakers did not realize what the waste meant."

"Our industry never again will see this great waste. The extravagant use of flour, sugar, fat and other ingredients that once were thought to be indispensable to good bread now are known to be unnecessary to a palatable, wholesome loaf."

"I am speaking throughout the west partly for the purpose of preparing the way for our returning soldiers. The problem of receiving them back into the industry without upsetting conditions will be a huge one. Our union is preparing to receive its members who went across just as they left us, and we will do everything in our power to re-establish them."

Cyprus has revived its former native tobacco industry.

# THREE DOWN AND OUT H. A. LEMMON WIRES

H. A. Lemmon, president of the state council of defense, wired Judge Mark R. Averill, director of the Nye County Council of Defense, the following:

"Well, boys, the fight is on. Hearst has applied in the federal court for an injunction against our order. Hearing is set for October 4th. The court said the council of defense is a government agency and refused an injunction or restraining order until after the hearing. The latest war news is that Bulgaria has quit and Turkey is expected to quit any minute. This, with Hearst, makes three down. Set 'em up in the other alley."

# MARK R. AVERILL HAS NO OPPOSITION

Judge Mark R. Averill is the only nominee for the position of judge of the district court for the fifth judicial district as his legal record is so high that he is regarded as the first jurist of the state today. The candidate is proud of the fact that in few cases has the state supreme court reversed his decisions or entertained motions for new trials at affairs originating in his court or in districts where he has visited in his judicial capacity. As a mining authority his clear cut decisions have had the endorsement of the United States supreme court which is composed of the greatest intellectual legal lights of the nation.

In addition to his judicial duties Judge Averill has given freely of his time as director of the Nye County Council of Defense who affairs are largely in his hands.

# WORK DURING WINTER

(By Associated Press)  
ANCHORAGE, Alaska, Sept. 5.—(By Mail)—Work on the Alaska railroad will be continued next winter on the same scale as that of past winters, according to an announcement by William Gorg, engineer in charge of the Anchorage division. The announcement was made to quiet disturbing rumors among the railroad labor element.

DR. P. D. McLEOD returned this morning from San Francisco where he went with his mother who was suffering from a cataract. Mrs. McLeod will remain in San Francisco with the patient until the latter is able to resume her journey to her eastern home.

O. S. LODWICK, engineer at the substation for the past four months, accompanied by his wife and two children, left today by auto for Niles, Ohio, to settle an estate, with the intention of returning to Tonopah, if possible, to continue his residence here. Mr. Lodwick has resided fourteen years in the state, and four years in Nye county.

D. M. GILBERT, cashier of the American Railway Express company, left this morning for San Diego where he will enter the service. Mr. Gilbert was a member of the baby class of 1918 and only recently came from the company's office to Goldfield to take the place of a predecessor who joined the colors. He will be succeeded by R. S. Farley, who arrived today from the coast accompanied by his wife.
